If on the front of your test shows a different number in the 100th's place, this happens because the computer Robin uses rounds up. This doesn't change any of the placing's in your class.

Also, if you have the same score as another rider in your class, then the tie-breaking rules apply.

A little education...

Tie-breaking rules are as follows...

The scorer adds up the collective marks and whom ever has the highest total marks is placed higher.
